Flexibility of learning space						
Impact of space on learning objectives or group						
Desk Colours						
Seating arrangements on mobile desks						
Impact on student attainment						
Impact on behaviour						
Impact on student management						
Appropriateness of seats and chairs						

Are we able to use details and photographs from this project for our case studies?

YES NO Further Approval needed

SECTION 2

If you have run this project before, what are the benefits and disadvantages of the new space?

What impact do you think this physical space has had on the attainment of students (and yourself)

What effect would a space like this have on your teaching if you had a similar set-up in school?

What changes would you make to the learning space if you were redesigning it? What is missing?

Having been in this space, has it suggested new projects/approaches to you, or new ways to use the space in future visits?

Is this room more than just a collection of trendily shaped furniture?
